

STRIKE ON DOCK, SHIP MAY HAVE TO TAKE CARGO BACK

Noordam of Holland-American
Line Involved in Strike of
Dock Workers.

Storage of goods, docks and butchers are endeavoring to-day to discharge the cargo of the Holland-American line's boat Noordam in order that she may be able to sail next Tuesday. The striking longshoremen to the number of 400 are just as positive as ever that they will not return to work until their demands are granted. It is said that the company is making arrangements to import 500 strikebreakers from New York today, and what has been a peaceful strike is liable to become one of violence.

The longshoremen, who are moving the cargo as slowly as they can, are feared that the Noordam will be forced to carry back to Holland on Tuesday fully three-fourths of her cargo. If strikebreakers are imported the cargo may be taken off, in case to allow of the ship's getting away without delay. The Noordam has a full

cabins for Tuesday's sailing and the company is determined that the boat shall depart on schedule even though three-fourths of the cargo be recarried across the Atlantic.

The striking longshoremen demand that their union be recognized and that Henry Hatcher, the foreman on the pier, be discharged. The particular grievance of the strikers against Hatcher is that he employs non-union men in preference to those belonging to the union. The company is emphatic in announcing that it will not discharge Hatcher, and furthermore contends that its piers have always been open to union and non-union workmen and that it does not intend to change its policy.

SOUTH SHORE FRANCHISE MAY BE TAKEN OVER.

Manhattan and Jamaica Company
Willing to Accept Its Assignment
and Operate Road.

Joseph G. Robin's South Shore Traction Company on the strength of whose franchise awarded by the city, Robin, now in the hands of the receiver, realized hundreds of thousands of dollars, was again under consideration by the Board of Estimate to-day. The matter came up with the filing of the report of the Franchise Committee of the Board when it developed that the Manhattan and Ja-

maica Railway Company is willing to take over an assignment of the franchise and operate the new road under certain franchise modifications.

The Robin franchise gave his company the exclusive right to operate on the only direct thoroughfare leading from the Queensboro bridge to Jamaica. This the committee objects to saying that the future welfare of the Borough of Queens demands that no railroad company be given such exclusive rights,

but that other companies share in the use of the direct thoroughfare as well. The company now agrees to the use of its tracks by other companies and has agreed to other conditions demanded. Among these the company is bound to specified dates as to completion of track laying and operating. One section of the road is to be completed by October next, which will insure transit relief for a section of the borough now almost entirely without street railway facilities.

The committee recommended the approval of the plan of assignment at once so that the new company can begin building promptly. In this the Board acquiesced.

Well Mated.
(From the Chicago Tribune.)
